OLD CROP SOLD

And New One Being Prepared for The Market.

There is a little to report in tobacco circles at present. The sales for the week (private) were not large, but prices were quite satisfactory. Good leaf commands fair prices, while the lower grades find a fair demand. Nearly all of the crop of 1899 has been sold and little activity in the market is expected until the new crop begins to move.

The entire crop of 1900 has been put under shelter and the most of it has been cured in a very satisfactory manner. The acreage was a very large one and some very fine leaf was grown, but the crop as a whole is not considered an extra good one.

Judge Robbins proved himself a friend to Hopkinsville while a member of the Legislature and our people should give him a big crowd.
